Showcase 7.1

Our company, **CODER FUEL INFOTECH PVT LTD**, recently organized a personality development session for our employees and interns. We believe that good communication, interpersonal skills, neat appearance, and confidence are essential attributes in any industry. To impart these qualities, we invited **Mr. Sunny Francis**, an ex-Mr. India with experience in the fashion industry, to lead the session.

During the session, Mr. Francis emphasized the importance of communication and how a good introduction can take one to greater heights. He gave examples of how people can learn good manners from others, both good and bad. Good people can teach us what and how to say things appropriately, while bad people can teach us what not to say in public.

Mr. Francis also **introduced our interns to an ABC formula for personality development: A for Appearance, B for Body Language, and C for Communication**. These three elements are the main rules for developing the best personality.

The session concluded with Mr. Francis addressing individual communication problems faced by our interns and advising them accordingly.

Showcase 7.2

We recently organized a 10-day internship program for **BCA** and **BSC-IT** students at **Sadabai Raisonni Women's College in Nagpur**. The internship offered them training in **WEB3 Development** and **R Programming**.

Mrs. Sushmita Bawiskar, our industrial expert in data analysis, mentored them in R programming and provided education on all the modules they need to be prepared for the data science industry.

Ms. Ishita, our second industrial expert, advised them on UI-Development from scratch. As a result, they are now equipped to create a website with complete responsiveness and eye-catching 2D animation effects.
